I. GENERAL PROVISIONS

1. Area of application

Fees for using the docks of Fährhafen Sassnitz GmbH (Mukran Port) are charged according to these Port Tariffs.

The area of the port for which fees are charged comprises all water and land areas belonging to Fährhafen Sassnitz GmbH, including the facilities found on them, within the bounds designated in **Annex 1**.

Special fees shall be agreed for services not listed in these Port Tariffs.

Additionally to the regulations of these Port Tariff, the currently valid version of the Terms and Conditions of Fährhafen Sassnitz GmbH (AGB) have to be noticed when using the port facilities.

2. Conclusion of agreement, types of fees, method of payment and due date

Making use of the port facilities listed under item 1., paragraph 2 entails the conclusion of an agreement with Fährhafen Sassnitz GmbH. Thereby the provisions of these Port Tariffs shall take effect for the respective user.

Owners or users of watercrafts and other floating bodies are obligated to pay the fees as joint and several debtors.

The following are obligated to pay all other fees,

- whoever arranged for the service or in whose favour the service is performed,
- whoever has assumed the responsibility for paying the fees by means of a declaration or
- whoever is required by law to assume liability for paying the fees for another.

The following fees are charged by Fährhafen Sassnitz GmbH in accordance with these Port Tariffs:

- a) port dues,
- b) demurrage charges,
- c) quay dues,
- d) ISPS Gate Charge,
- e) security surcharge,
- f) fees for disposing of waste generated by ships,
- g) mooring fees.

The amounts of the fees mentioned above are set down in Sections II to VII of these Port Tariffs.

The entitlement to the fees arises when services are performed and facilities are used pursuant to item 1. This shall not apply for facilities which are subject to fees that are rented out.

The fees are due with receiving the bill. Beginning on the fifteenth day following the due date, default interest shall be charged at 8 % above the base interest rate of the German Central Bank (Deutsche Bundesbank).

Due to incorrect information by the purchaser an additional fee of 5.00 € per invoice must be paid for the reissue and distribution of invoices.

The currency shall be the EURO.

The place of jurisdiction shall be Stralsund.

3. Base of assessment

Port dues are calculated per port call which is defined as arriving and departing.

Seagoing vessels are charged by gross tonnage (GT) according to the international tonnage certificate. If various certificates are submitted, the charge shall be based on the certificate with the largest measured result.

For open-top container vessels, the reduced gross tonnage shall not be considered.

Inland waterway vessels, except inland tank vessels, shall be charged according to the maximum carrying capacity in metric tons as indicated by the Certificate of Measurement.

Unmeasured watercrafts, crew transfer ships, working boats or other floating bodies shall be charged according to their base area, which shall be calculated by multiplying the greatest length (rounded up to full meters) by the greatest width (rounded up to full meters).

Each measuring unit or part thereof shall be counted as a full unit.

The fee rates in these Port Tariffs are the net amount. In the case of services subject to VAT, the tax shall be charged similarly to the respectively effective Value Added Tax Act.

The fees are due with receiving the bill. Beginning on the fifteenth day following the due date, default interest shall be charged at 8 % above the respective bank rate of the German Central Bank (Deutsche Bundesbank).

Due to incorrect information by the purchaser an additional fee of 5.00 € per invoice must be paid for the reissue and distribution of invoices.

4. Exemptions

The following watercrafts shall be released from the obligation to pay fees in accordance with these Port Tariffs:

- a) vessels of the German Armed Forces,
- vessels used for research or official duties of the Federal Government, of the State of Mecklenburg-Western Pomerania or the City of Sassnitz,
- vessels of foreign governments which display their national flag and are used only for state duties, if reciprocity is assured,
- d) pilot vessels, fireboats and rescue lifeboats, if they are used for their intended purpose,
- e) ship's boats and long boats belonging to vessels and equipment released from the obligation to pay fees according to these regulations if they are used for their intended purpose,
- f) vessels which call at the port as port of distress or for the purpose of obtaining medical aid, as long as the emergency lasts, as well as vessels helping those in distress.

Watercrafts can be released from having to pay the demurrage fees insofar as they cannot leave the port owing to specific weather conditions and can show a certificate of the port authorities valid for the appropriate period.

5. Disclosure requirement

Masters of all vessels must send in due time all the data of their vessels and cargos necessary for calculating the fees before arriving or leaving the port, respectively, in written form analogous to the forms listed in Annex 2 and Annex 3 to the operator of the vessel traffic control. The ship, cargo and transport documents must be submitted at the demand of Fährhafen Sassnitz GmbH. If the data necessary for calculating the fees are not or not completely submitted to Fährhafen Sassnitz GmbH or if inspection of the ship, cargo and transport documents is denied, then the data necessary for calculating the fees shall be estimated by Fährhafen Sassnitz GmbH at the expense of the party obligated to make payment.

When the ship's notification has been received in compliance with paragraph 1, Fährhafen Sassnitz GmbH will assign a berth.

Those required to make notification can be represented by an authorized agent, although they remain responsible for complete and correct notification.

All accounting related documents are to be transmitted to the operator of the vessel traffic control until the ships departure.

6. Security regulations

Fährhafen Sassnitz GmbH or third parties entrusted by Fährhafen Sassnitz GmbH are solely responsible for averting and defence of danger at the port area and terminals according to the statutory security and safety regulations as provided by the ISPS Code. Fährhafen Sassnitz GmbH will levy a security surcharge (security level 1) payable by arriving and departing vessels under conditions of normal harbour and sea routine.

The security surcharge shall be paid by all vessels with more than 500 GT and liable to pay port dues.

Ferries and RoRo ships in regular navigation service are subject to special contractual regulations.

If competent authorities declare the state of increased security risk (security level 2 and 3), Fährhafen Sassnitz GmbH will execute the necessary actions as described in their security and emergency plan. Surcharges accruing in averting danger shall be calculated on the basis of the actually carried out actions.

Unauthorized access to the port area is not permitted.

Any form of entry to the ISPS area shall be registered at port security (TRAFFIC CONTROL) via email specifying the name of the person seeking access and the reason for entry.

Access to the ISPS area shall be denied if information is missing or incomplete. Access for registered persons shall only be granted after registration in person at the traffic control and safety instructions.

7. Validity

The provisions of these Port Tariffs of Fährhafen Sassnitz GmbH shall take effect on March 1st, 2022 and shall remain in force until revoked.

At the same time, the Port Tariffs of Fährhafen Sassnitz GmbH of February 1st, 2021 shall become unvalid.

VII. DISPOSAL OF SHIP'S WASTE

For all watercrafts calling at the Mukran Port the Law on the Disposal of Ship's Waste and Cargo Residues of Mecklenburg-Western Pomerania of December 16th 2003 calls for the payment of a lump sum for waste disposal.

Watercrafts which can submit an exemption issued by the responsible authorities in accordance with § 12 of the Law on the Disposal of Ship's Waste and Cargo Residues, shall be released from having to pay the disposal fees.

The disposal fees amount to:

 a) Basic fee for all vessels not receiving a discount or an exemption:

	0.026 € / GT
per call in port	125.00 € minimum fee

b) Basic fee for vessels calling at several ports in quick succession, which have properly disposed of their waste in the port previously visited and which have been issued an individual exemption in compliance with § 7 section 2 of the Law on the Disposal of Ship's Waste and Cargo Residues by the responsible authorities:

per call in port 0.013 € / GT

c) For ships and other watercrafts making use of a berth for more than five days, the following fees must be paid in addition to items a) and b) for each five-day period or part thereof:

0.007 €/GT

d) For Crew Transfer Vessels

per call in port 6.00 € / vessel

The disposal fees stated in items a) and b) shall be calculated by taking into account the type of vessel and the size measured in gross tonnage according to the following table:

GT	Correction factor	
< 20,000	1.3	
> = 20,000	1.8	

If there are plans to dispose of ship's waste in Mukran Port, the port authority and shipping office must be notified 24 hours before the ship enters the port (in accordance with the form in Annex 4).

The port authority and shipping office must also be notified in the event of inadequacies in the disposal of ship's waste in Mukran Port (in accordance with the form in Annex 5)

The types of disposal of ship's waste in Mukran Port covered by the lump sum fee, or which costs must be borne by the waste producer (vessel), are fixed. (see Annex 6: overview of the disposal of waste generated by ships) All disposals mentioned in Attachment 6 have to be sorted by type of disposal and put separately to be disposed.

The FHS charges a fee for each processing of the ship waste report and the associated effort

each ship waste	19,75 €

Mooring services must generally be used. Exceptions for smaller vessels require prior consultation, but do not entail a release from the payment of fees for mooring and unmooring.

Notwithstanding the aforementioned, tank ships as described under item V and used for bunkering alongside the vessel shall be released from paying mooring fees as described under item VIII. This applies only if the bunkering vessel proves its professional and seamanlike mooring/unmooring skills.

For unmeasured watercrafts fees for mooring and unmooring are regulated per single operation as follows:

a) Mooring and unmooring
 by base area
 (max. length x max. width), per m²

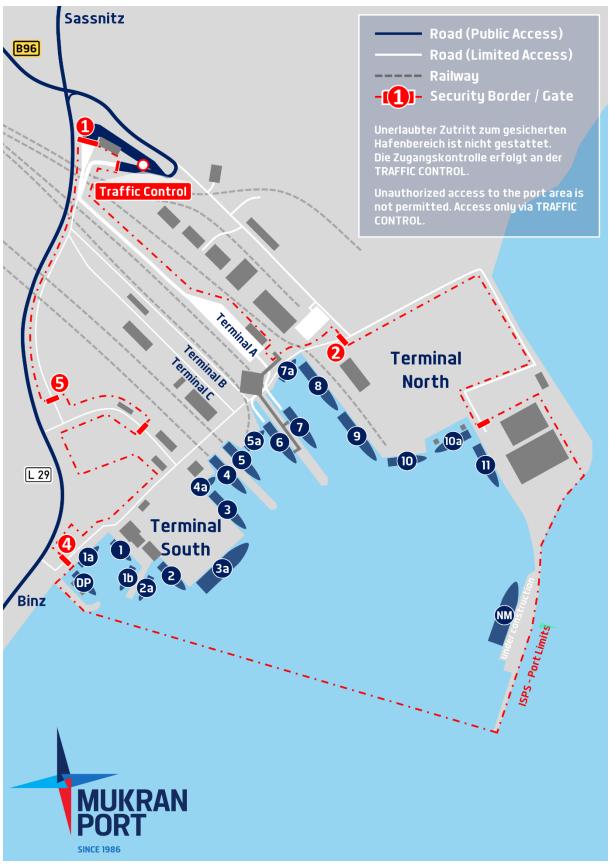

from 7:00 a.m. to 7:00 p.m.	0.017€
from 7:00 p.m. to 7:00 a.m.	0.04 €

b) Movingby base area(max. length x max. width), per m²
